THE PACKAGING MACHINERY BRAND

BATEC Case Erector

The automatic BATEC case erector provides a solution for a wide range of boxes on the market in a single machine, supporting a broad variety of formats. Easy to operate and adjust; it integrates a touch screen with a highly intuitive graphic menu to simplify the user's work. Maximum precision in every movement ensures high productivity and quality.

MODEL		BATEC	
GENERAL FEATURES			
Maximum output	cajas/min		20
Maximum box dimensions (external)	L	mm	650
	W	mm	410
	H	mm	600
Minimum box dimensions (external)	L	mm	210
	W	mm	120
	H	mm	100
Supported box types	RSC. HSC, FEFCO 0200/0201		
Available bottom closures	tape, hot-melt glue, gummed paper		
TECHNICAL DATA			
Weight	kg		600
Dimensions	L	mm	3180
	W	mm	2290
	H	mm	1720-1820
Magazine capacity	150 boxes (estimated for folded box thickness of 7—8 mm)		
Working height	mm		630-750
SERVICE			
Electrical voltage	v		230/400V III+T+N
Installed power	kW		1,5
Maximum power consumption	kWh		1,2
Air pressure	bar		6
Air consumption	l/box		8
OPTIONS			
Extended magazine	O		
Stainless steel	O
