THE PACKAGING MACHINERY BRAND

Pallet wrappers **Single**

Latest-generation semi-automatic pallet wrapping machines for palletized loads. The only manual operations are cutting the film and attaching it to the pallet; all other operations are fully automatic and easily programmable. Versions with motorized pre-stretch ensure minimum film consumption.

MODEL		Single+ 2.0	Single+ 2.0 FM	Single+ 2.0 TR
FEATURES				
Maximum pallet dimensions	mm	1200x1100	1200x1100	1200x1200
Maximum load height	mm	2400	2400	2400
Maximum load weight	kg	2000	2000	1000
TECHNICAL DATA				
Carro portabobinas		MOTORIZED PRE-STRETCH	MECHANICAL BRAKE	MOTORIZED PRE-STRETCH
Film carriage		Manual	Manual	Automatic with sealing
Pre-stretch ratio		150%/300%	X	O
Turntable speed control		●	●	●
Film carriage speed control		●	●	●
Maximum film width	mm	500	500	500
Film capacity (reel diameter)	mm	240	240	240
PLATAFORMA				
Rotation speed	RPM	12,0	12,0	12,0
Diameter	mm	1650	1650	1650
Height	mm	78	78	93
WEIGHT AND DIMENSIONS				
Weight	kg	500	500	600
Dimensions	L mm	2460	2460	2725
	W mm	1650	1650	1650
	H mm	2770	2770	2770
SERVICE				
Electrical voltage	V	230 V II+T	230 V II+T	230 V II+T
Installed power	kW	1,5	1	2,5
Maximum power consumption	kWh	1,2	0,8	2
OPTIONS				
Maximum wrapping height		2900	2900	3000
Maximum turntable diameter		3000	3000	1800 (pallet size 1200x1200)
Top sheet dispenser		Manual	Manual	Manual
Ramp for platform access		O	O	X
Pit frame for floor installation		O	O	X
Stainless steel		O	O	O
Top press		O	O	O
