THE PACKAGING MACHINERY BRAND

BEM XL Case Erector

Automatic equipment for box forming and bottom sealing using adhesive tape, gummed paper, or hot-melt glue. Especially suitable for applications working with large-size boxes. Designed to be integrated into production lines, these are robust and reliable machines, ideal for high production levels.

MODEL

BEM XL

GENERAL FEATURES

Maximum output	boxes/min	5
Maximum box dimensions (external)	L mm	650
	W mm	410
	H mm	600
Minimum box dimensions (external)	L mm	210
	W mm	120
	H mm	100
Supported box types	RSC, HSC, FEFCO 0200/0201	
Available bottom closures	ape, hot-melt glue, gummed paper	

TECHNICAL DATA

Weight	kg	425
Dimensions (version with tape)	L mm	2537
	A mm	2278
	H mm	1781
Magazine capacity	150 boxes (estimated for folded box thickness of 7–8 mm)	
Working height	mm	550-750

SERVICE

Electrical voltage	v	230/400V III+T+N
Installed power	kW	0,5
Maximum power consumption	kWh	0,4
Air pressure	bar	6
Air consumption	l/box	30

OPTIONS

Extended magazine	O
Stainless steel	O
