THE PACKAGING MACHINERY BRAND

Forming and Packing Monoblocks **Zenit**

Packing stations for integration into automatic lines, adaptable to any type of rigid or semi-rigid product. They can work with cardboard boxes, plastic trays, or similar containers. Designed for quick format change with minimal adjustments, they are the best solution for low to medium production packing lines.

MODEL		ZENIT
Max. output	cycles/min.	6 (8 with servomotors) depending on product characteristics
Maximum box dimensions (medidas exteriores)	L mm	650
	W mm	410
	H mm	600
Medidas mínimas de caja (external)	L mm	210
	W mm	120
	H mm	100
Accepted container types		Cardboard boxes / metal containers / plastic trays / cardboard trays
TECHNICAL DATA		
Available heads		Flat suction, suction cups, tulips, clamps...
Head options		Double head, quick change
Weight	kg	800
Dimensions	L mm	1750
	W mm	1300
	H mm	3800
SERVICE		
Electrical voltage		230/400V III+T+N
Installed power	kW	4,8
Electrical consumption	kWh	2,85
Air pressure	bar	6
Air consumption	l/cycle	6
OPTIONS		
Extended magazine		O
Stainless steel		O
