

Stretch wrapping machine

LINE

Automatic stretch wrappers for wrapping palletized loads, designed to operate integrated into production lines. Engineered to handle any type of load without operator intervention. Fully customizable with a wide range of options and accessories, providing the perfect solution for every production requirement and working environment. The LINE stretch wrapper is a high-performance machine that, combined with its low maintenance needs, makes it a highly cost-effective investment.

MODEL	LINE	
Maximum production	pallets/h	60
Maximum pallet measurements	L mm	1200
	A mm	1200
	H mm	2000
Maximum pallet weight	kg	2000
TECHNICAL DATA		
Film tension control		Motorized pre-stretch
Film cutting		Thermal cutting blade
Pre-stretch ratio		100-150-250%
Turntable speed control		●
Film carriage speed control		●
Maximum film width	mm	500
Film capacity (film diameter)	mm	260
Platform with motorized rollers		●
PLATFORM		
Turning speed	RPM	21
Diameter	mm	1900
Height	mm	450
Conveyor width	mm	940/1340
WEIGHT AND MEASUREMENTS		
Weight	kg	900
Measurements	L mm	2860
	A mm	1900
	H mm	3000
SERVICE		
Pneumatic	bar	6
Electrical voltage	V	230/400V III+N+T
Consumption	l/cicle	120
Electrical consumption	kWh	3
OPTIONS		
Maximum column height	mm	3500
Maximum turntable diameter	mm	2500
Maximum load weight	kg	3000
Motorized load stabilizer plate		O
COVERMATIC top sheet dispenser		O
Film cutter with blade		O
Safety fences		O
Cord		O
Base risers		O
Dual roll holder		O
Adaptation to different environments and working temperatures		O
Stainless steel version		O
ANFID tape dispenser		X
RFID label reader		O
JUMBO rolls		O
