WRAPPING ROBOT

Semi-automatic wrapping robot that allows wrapping loads of any size, anywhere. It is the ideal solution for wrapping large-sized pallets. Its motorized pre-stretch system ensures minimum film consumption. It allows wrapping outdoors or at different workstations without the need to move the load.

FEATURES

- Motorized pre-stretch 300%
- Program memory
- CBL performance control and diagnostics (Control Battery Life)
- 2 GEL batteries 105Ah + high-frequency ONBOARD charger
- Configuration via touchscreen
- Long battery life per charge
- Minimum film consumption
- Controlled by PLC with touch LCD screen
- Independently adjustable top and bottom reinforcement wraps
- CE certified according to Directive 2006/42/CE

ACCEPTED PALLET DIMENSIONS

Min. length	Min. width	Max. height	Max. weight
600 mm	600 mm	2400 mm	-

WORK REQUIREMENTS

Charger power supply voltage	240 V DC
