Wrapping robot **Ronda 900+**

Wrapping robot that allows wrapping loads of any size, in any location, without the need to move them. It is the ideal solution for wrapping oversized pallets. Its motorized pre-stretch system ensures minimal film consumption at all times. Very easy to operate, it allows wrapping outdoors or at different workstations without moving the load.

MODEL		Ronda 900+
Minimum pallet measurements	mm	600x600
Maximum load height	kg	2400
Maximum load weight	kg	X
TECHNICAL DATA		
Film tension control		MOTORIZED PRE-STRETCH
Film cutting		Manual
Pre-stretch ratio		300/380 %
Rotation speed	m/min	20-90
Maximum film width	mm	500
Film capacity (film diameter)	mm	260
Touch screen		●
Adjustable top and bottom wraps		●
Height detection by photocell		●
Carriage anti-fall device		●
WEIGHT AND MEASURAMENTS		
Weight	kg	410
	L mm	1610
Measurements	A mm	1253
	H mm	2785
SERVICE		
Battery	V	24
Battery charger	V	110-240
